SUMMARY

I am looking for a full-time job as a web developer to hone my skills and become a full-stack developer, I am a very passionate and eager developer. I am highly motivated by continuous learning, with a strong passion for advancing my skills in technology, ensuring I stay current with the industry trends and innovations. Despite not graduating a computer science degree, I have always been immersed in computer science through youtube, reddit, etc. I enjoy grappling with mind-tearing puzzles/problems of JavaScript. Coding has been a hobby for me and I am dreaming of finding a company to guide/mentor me to become a proper developer/web designer and to connect with other experts to reach my goals.
